

ACCESSORIES

Adjustable Angular Torch Heads

Adjustable Angular Torch Heads permit bevel and straight line cutting without the need to angle the torch. Total angular adjustment on either side of the vertical plane is 125°. The additional 35° from the horizontal enables cutting from below work level when necessary. Indexing marks of 5° increments are forged in the face of the Adapter body to facilitate adjustment at any required degree. Tip sizes up to number 6 can be used with this attachment.

Ordering Information

Part Number	Torch
831 2100	4700 Series

Duplex Tip Holders

The Adjustable Duplex Tip Holder permits 2 parallel cuts to be made simultaneously with one CONCOA cutting torch. Easily adjusted to cut metal strips between 1 ¼" and 12" wide (3.2 and 305. cum). It can be used for work to 3" (7.6 cm) plate thickness.
